Question

Lesson 2

Student worksheet

It's a question of energy

Years
7 to **8**

WithOnePlanet.org.au

INQuIRY     

WithOnePlanet

Open education
An xpend Foundation initiative

It's a question of energy

Lesson 2: Student worksheet

Have a look at the two worksheets that you completed during the last lesson – the GENERATE-SORT-CONNECT-ELABORATE worksheet and the CSI worksheet.

Reflection on last lesson

Q1: What are five important things that you learnt from the last lesson – by completing the worksheets and during the class discussion - about **carbon**?

1. _____

2. _____

3. _____

4. _____

5. _____

Q2: Do you have any **questions** about **carbon, energy and the carbon cycle**? (These can be questions from what you learnt during last lesson, or any other questions you can think of).

A large rectangular area with a dashed border, containing 20 horizontal lines for writing.

Q3: From your answers to Questions 1 and 2 above, and from listening to others in your class, can you write one or more **BIG QUESTION(S)** that would help to answer all the small questions that you have written?

A large rectangular area with a dashed border, containing 20 horizontal lines for writing.

Q4: Our class Essential question is:

A large rectangular area with a dashed border, containing ten horizontal lines for writing an answer.

Q5: What **further** questions do I need to ask and what information do I need to find, so that I can answer the class **Essential question** (not your own questions)?

Use the table below to brainstorm some of your ideas.

What information do I need to find out?	What other questions do I need to ask?
