Where to next?

Lesson 9: Student worksheet

My four wishes for a better environmental future ...

I'm a green genie

Think about what you would do if you had the power to make changes for the better. Think very carefully about the changes you would make for others, as sometimes what we think should be better for others is not actually what they would change for themselves.

Your own	Your Community	Your Country	Our Planet
What do you wish for to make your own cultural environment future better?	What do you wish for to make your community's cultural environment future better?	What do you wish for to make your country's cultural environment future better?	What do you wish for to make our planet's cultural environment future better?
My first wish is ...	My second wish is ...	My third wish is ...	My fourth wish is ...

Activity: On reflection ...

Think

What did you most enjoy thinking and learning about in this culture unit?

Question
